On August 1, Dr. Gustave A. Harrer assumed his new duties as Director of Libraries at the University of Florida in Gainesville. The appointment brought to a close eight exciting years during which, as head of the library system at Boston University, Dr. Harrer wrought far-reaching changes upon the Charles River campus. Under his directorship the library's budget, holdings, salaries, and professional staff were dramatically increased; valuable collections were brought to the University; the Twentieth Century Archives were initiated; the Friends of the Boston University Libraries was revitalized as an organization; and the beautiful Mugar Memorial Library was constructed, consolidating nine departmental libraries on the campus. It was during the planning and building of Mugar that Dr. Harrer's catholicity of knowledge and interest became legend, for rare indeed is the man who in the same morning could discourse on medieval binding and show the construction crew how to adjust a particularly intricate mechanical apparatus.

A warm, affable man with a wide knowledge of books and human beings, Dr. Harrer personifies the librarian-bookman-scholar-administrator in the best traditional sense. Linguist, musician, builder, traveller, reader, champion of civil liberties, husband, father, charming host, library consultant, and participant in civic, historic, and professional organizations, he is in that unique position of having conquered the twenty-four hour day.

Dr. Harrer received his AB (1948), MA (1950), and PhD (1953, in Germanic Languages) from the University of North Carolina and his MS in LS from the University of Illinois (1954). Beginning his academic career as assistant professor of German and Latin at Millsaps College (1949-51), he entered the world of librarianship in 1954 when he was appointed Assistant Order Librarian, University of Tennessee Libraries, and then Associate Order Librarian at the same University the next year. In 1957 Dr. Harrer was wooed to the West Coast as Chief Acquisitions Librarian at Stanford University, and in 1958 was appointed Stanford's Assistant Director for Central Services, a post he held until his arrival in Boston in 1960.

Long active in ALA, and in the New England, California, and Tennessee library associations, Dr. Harrer has at various times served on some dozen national library committees, and has frequently contributed to professional library and academic publications. Among his honors are the American Council of Learned Societies fellowship in linguistics (University of Michigan, 1948); the Fund for the Advancement of Education faculty fellowship for advanced graduate work (1951-52); the Katherine L. Sharpe Alumni Fellowship (University of Illinois Library School, 1953-54; the Carnegie Seminar in Advanced Library Administration Fellowship (under Keyes Metcalf, 1958); and the CLR Grant for the Study of Book Number Code (1960).

Dr. Harrer's wide experience and fine personal assets assuredly mean that the University of Florida Libraries have acquired a unique Director. Having spent eight years in the Athens of the New World, it may be assumed that with the best wishes of his many friends, Gus Harrer also takes with him to the land of Ponce de León, the Puritan Ethic.—Howard B. Gottlieb, Boston University.
TOM LITTLE

APPOINTMENTS

MRS. SUSAN ANTHES has joined the staff of the University of Miami as assistant reference librarian.

JANET Arey has been appointed reference librarian at Birmingham-Southern College.

LEE ASH, library consultant, has contracted to edit the 16-page bimonthly New England Library Association Newsletter, which will begin publication in January, 1969. Editorial address: 31 Alden Road, New Haven, Connecticut 06515.

JEAN BARNETT has joined the staff of the University of California library, Riverside, as cataloger-bibliographer in humanities.

JOSEPH M. BARTH has been appointed audiovisual librarian at the United States Military Academy, West Point.

RICHARD W. BEEDE has been named acquisitions librarian at the State University of New York College, Geneseo.

LAWRENCE BOWMAN has been named librarian of the Defiance College, Defiance, Ohio.

MRS. NANCY G. BOYLAN has been appointed head, government documents department at the University of Iowa libraries.

JERALDINE BYRNE is now in charge of the
bibliographic checking section at the University of California library, Riverside.

Phyllis Carter has joined the staff of Duke University Library as a descriptive cataloger.

Glyn Evans, formerly research librarian of the Royal Society of Medicine Library, London, is now head of the machine project at the School of Medicine Library, Washington University.

Ronald L. Fingerson has been appointed head, serials department at the University of Iowa libraries.

Stuart Forth is acting vice president for student affairs at the University of Kentucky.

Robert Andrew Golter has accepted the position of assistant director of University Libraries and librarian of the J. Henry Meyer Memorial Library, Stanford University libraries.

Harold Gordon is acting director of libraries at the University of Kentucky.

Charles Hicks is now acting head of the acquisitions department at the University of Miami library.

Mrs. Patricia Hitchings is now head of reference services at Hamilton Library, Edinboro State College, Pa.

Donald C. Hupfer has joined the staff of the State University of New York College, Geneseo, as circulation librarian.

Marcia Jedd is now associate librarian in the reference department, Cornell University libraries.

Mrs. Doris J Jensen has joined the staff of the Cornell University libraries as assistant librarian, law library.

Diane Johnson is a new staff member of the government publications department, University of California library, Riverside.

Richard M. Kolbert has been appointed head, acquisitions department at the University of Iowa libraries.

Caroline D. Ladeira has joined the staff of the Cornell University libraries as assistant librarian, serials and binding department.

William T. Lane has been appointed reference librarian at the State University of New York College, Geneseo.

Dr. Hwa-Wei Lee, chief librarian of Hamilton library, Edinboro State College, Pa., will be on leave during 1968-69 to serve as the library director of the Asian Institute of Technology in Bangkok, Thailand on an appointment by the Agency for International Development.

William C. Leonard has accepted appointment as head of the graphic arts service and instructor in library administration at the University of Oregon.

Mrs. Bonnie Meyer Ledbetter is now a cataloger at Birmingham-Southern College.

Leslie H. Meyers has joined the staff of the reference department, Cornell University libraries.

Dennis Leefer is the new head of reader services, Hamilton Library, Edinboro State College, Pa.

Mrs. Kenneth Lissberg is a new staff member at the School of Medicine Library, Washington University.

Venita McPherson is a new staff member in the reference department at the University of California library, Riverside.

Thomas L. Mann has been appointed acting assistant reference librarian at Wisconsin State University, Whitewater.

John H. Martin has accepted the position of acquisitions librarian at the School of Medicine Library, Washington University.

Mrs. Cherie Montgomery is now circulation librarian at the School of Medicine Library, Washington University.

Judith A. Proctor has joined the staff of the Cornell University libraries as assistant librarian, serials and binding department.

Joseph Schwartz is now director of reader services and assistant librarian at the University of Minnesota Library, Duluth.

Nasser Sharify has been named dean of the graduate library school, Pratt Institute.

Stanley Skarzynski has joined the staff of the Hamilton Library, Edinboro State College, Pa., as a bibliographer.

Louise Stewart is now head, acquisitions section, University of California library, Riverside.

Stuart A. Stiffler has been appointed librarian at Findlay College.

Mahendri Suprapta is now an assistant cataloger, Cornell University libraries.

Elizabeth Van Leuven is now the Russian bibliographer-cataloger at the University of California library, Riverside.

Virginia Vett has joined the staff of the Jackson Library, Stanford University libraries, as a cataloger.

Mrs. Lance C. Vinson is a new cataloger at Bowdoin College's Hawthorne-Longfellow library.

Saul Weinstein has been named acting chief librarian for 1968-69 at Hamilton library, Edinboro State College, Pa.

Mrs. Emma Williams has assumed the duty of assistant to the chief librarian at Hamilton library, Edinboro State College, Pa.

Donald G. Wilson has been appointed acting university librarian at the University of California library, Riverside.

Clifford Wurzel has been named head of special collections at the University of California library, Riverside.

Mrs. Margaret Carter Zieman became reference assistant at Georgia Institute of Technology on September 1.

FROM SEARCH TO PRINT OUT:

in LESS THAN 2 MIN.
Searching out and typing an LC entry takes up to 20 minutes. It means in-filing and out-filing. And skilled personnel to handle it. But now it can be done in less than two minutes... even by clerical personnel.

The new way is the Micrographic Catalog Retrieval System that automates your search and print-out procedures. Basically we have done the filing and look-ups for you, giving you a quick-find index by both LC Card Number and Main Entry. You have only to select the proper Microfiche card from the quick-find index. Insert this card in a Reader-Printer. Just six seconds later you have a full-size LC copy.

You are always current with the Micrographic Catalog Retrieval System... months ahead of the printed LC cards. Subscribers receive weekly issues on Microfiche of approximately 3,000 advance release LC cards, all alphabetized in a cumulative 13-week Main Entry Index. Cumulative issues monthly, quarterly and annually are also provided.

The M-C-R System releases your skilled personnel, speeds work flow, and simplifies the complexities of staying abreast of current LC output. We'd be happy to give you a convincing demonstration.

This coupon can be the beginning of the end of your LC search problems.
AVAILABLE IN OCTOBER

Financial Assistance for Library Education, a list of fellowships, scholarships and grants-in-aid which will be available for the academic year 1969/70 has been prepared by the Office for Recruitment and will be available from that office late in October. Price is 50 cents for a single copy; 10 copies—$4.75; 25—$11.25; and 100—$42.00.

that LC, which since 1961 has been supplying (on contract) subject headings for doctoral dissertations, has stated that because of the great increase in the work and the shortage of catalogers, it can no longer continue this activity without impairing the library's effectiveness in other programs. University Microfilms, meanwhile, has developed the DATRIX (keyword-in-title) system. This system leaves something to be desired, said Mr. Buckman, but LC headings for some subjects did also, and earlier efforts to have each institution assign subject headings to its own dissertations had proved even less satisfactory. A choice, however, must be made. University Microfilms will provide money for an analysis of the suitability of DATRIX descriptors, and, meanwhile, LC will be asked to continue the contract for a year until this investigation can be completed. Directors of ARL libraries were asked to give this matter their personal attention. Mr. Buckman will try to have remedied the six to eight week delays in the delivery of microfilms already mentioned, as well as six to eight month delays in getting dissertations microfilmed by University Microfilms, another serious problem for academic libraries.

G. F. Shepherd (Cornell University libraries) reported that The New York Times would replace any substandard microfilm of the newspaper supplied between September 1, 1967, and April 1, 1968. A team from the Eastman Kodak Company has found that the film now meets archival standards.

Dr. Logsdon "told it like it was" at Columbia during the student sit-in there, and librarians of other universities spoke of some of the consequences for libraries of campus demonstrations, for instance, in regard to insurance.

L. Quincy Mumford, Librarian of Congress, who distributed a summary—but fairly lengthy—report on the library, described the status of appropriations to LC, of the bill to amend and extend the Higher Education Act, including the amendments to Title II-C of that Act requested by LC, and of appropriations for Title II-C. He pointed out that the $2.8-million item in the budget of the Architect of the Capitol for the Library of Congress James Madison memorial library building had been "deferred without prejudice" by the House Appropriations Committee (as later it also was by the Senate), and he spoke of the library's increasingly dire need for space and the adverse effect that this may have on national programs.

President Eaton, after noting that other reports had been filed, announced that the next ARL meeting would be on January 26, 1969, in Washington, D.C. The Association will spend Saturday, January 25, at LC inspecting activities and being briefed on programs and developments of interest to ARL. After some graceful words of thanks by Benjamin Powell (Duke University library) to the Linda Hall library and its Director Joe Shipman, for "extraordinary hospitality," the meeting adjourned.—Elizabeth E. Hamer.

PERSONNEL

(Continued from page 313)

RETIEMENTS

Philip Hofer, collector and bibliographer, has retired after 30 years of service as curator of the department of printing and graphic arts in the Harvard College library. Mr. Hofer founded this department, the first of its kind in a university library, with his own collection of 10,000 books and manuscripts in 1938.

NECROLOGY

Miss Ruby E. Dare, librarian of Greenville College, Greenville, Illinois, succumbed to a massive stroke on August 8, 1968 at the age of 63.

IN MEMORIAM

Contributions to a Rudolph H. Gjelsness Scholarship Fund are being received by the University of Michigan department of library science.

The New York public library has established an Archibald P. De Weese Memorial Book Fund.

327
Microimaged information...

CLIPPING FILES
ON MICROFICHE

Formerly available in scrapbook form only in The Wall Street Journal library. NOW available on 4” x 6” microfiche film cards with reduced images of pages arranged in rows.

Divided into two categories: Corporate (articles about specific companies) and General (all other Wall Street Journal articles.)
THE WALL STREET JOURNAL (Eastern Edition) ... complete business and financial news covering all the various facets of the economy. 1968 subscription price ... $75 per year on 35mm roll microfilm.

BARRON'S NATIONAL BUSINESS AND FINANCIAL WEEKLY ... leading business and financial weekly. A must for use in advanced finance classes. 1968 subscription price ... $20 per year on 35mm roll microfilm.

THE NATIONAL OBSERVER ... a national weekly newspaper providing comprehensive coverage of world and national news, plus regular weekly features of interest to the entire family. 1968 subscription price ... $15 per year on 35mm roll microfilm.

Backfiles on all three publications also available on 35mm microfilm from first day of publication ... The Wall Street Journal from 1889, Barron's from 1921, and The National Observer from 1962. For more information on these backfiles and all microfilm services covering Dow Jones publications ... write MICRO PHOTO DIVISION, BELL & HOWELL COMPANY, 1700 Shaw Avenue, Cleveland, Ohio 44112.

valuable research tools available in their entirety in convenient, compact and well organized form.

... from The Wall Street Journal

Filmed quarterly and offered in two ways: Order either: Complete cumulative file distributed at the end of each quarter ... January-March, January-June, January-September and January-December ... $750.00 OR: Final cumulative filming distributed at end of last quarter, breaking down all Wall Street Journal articles by subject for an entire year ... $375.00

Each film card will contain as many as 72 microimages of clippings arranged in rows and columns. Top strip of each microfiche is color coded and titled to identify the new file by subject and cumulative release periods. It is convenient to find the information on any specific subject which appeared throughout the year.

An example of microfiche compactness is that 1000 fiche would contain 72,000 images of clippings and require a mere 10 by 6 inches of space.
