Dean of University Libraries, Drexel University

Drexel University seeks applications and nominations for a resourceful and visionary individual for the post of Dean of University Libraries. The candidate will possess excellent communication skills, a clear vision of the future role of technology in higher education and a deep commitment to, and broad experience in the service side of technology. He or she must have the ability to motivate and challenge others, act as an advocate for the university’s academic mission, and play a pivotal role in fundraising. The Dean, who is a member of the Dean’s Council and reports directly to the Provost, will provide leadership in the delivery of the appropriate information services to the academic community. The University places a priority on the delivery of computer-based academic services to users, and the scopes of all information service units on campus (including the Library and Computing Services) are currently undergoing re-evaluation. The new Dean will develop and implement a strategic vision for future technologies within this framework.

Drexel University, the premier CO OP-Operative technological university in the U.S., comprises the Colleges of Arts & Sciences, Business & Administration, Design, Engineering, Science & Technology. The campus, located in a region of great cultural vitality, has 300 faculty members serving 7,000 FTE students in accredited undergraduate, evening and graduate programs. The Hagerty Library, with 40 stall positions and 400,000 catalogued volumes, was recently automated through DRA and offers remote and networked access to extensive information resources. The College of Information Science & Technology’s 5 M.S. programs enjoy a high rank nationally.

Qualified candidates must possess an ALA-accredited MLS (an earned doctorate is also desirable) with a minimum of eight years of successful administrative experience.

Send resume and the names of three references to: Prof. A. W. Addison, Chair, Dean of Libraries Search Committee, Office of the Provost, Drexel University, Philadelphia, PA 19104-2873. Review of applications will begin April 16, 1997 and continue until the position is filled. The anticipated date of appointment is July 1st, 1997. An EO/AA employer: qualified women and minority candidates are strongly encouraged to apply.
Executive Director for Information Systems and Services

Franklin University offers an opportunity for leadership in the integration and creative development of its information services and support, including instructional technology, library services, administrative computing and institutional research in a networked environment.

The University: Franklin University is an accredited, independent institution serving approximately 5,000 students annually. Founded in 1902, the University has a long tradition of student-centered education and enjoys the strong support of the local business community. Visit our home page at www.franklin.edu for more information about the University.

The Position: The Executive Director of Information Systems and Services and Support reports to the Academic Vice President. The Executive Director should have a broad vision of how technology can be used to enhance and extend learning and to improve service to students in a student-centered institution. The institution has launched several efforts towards alternative delivery and on-line courses; created an effective LAN on a fiber-optic network; been a partner in the Columbus Metropolitan Library Discovery system; updated its administrative support by instituting Colleague; integrated into a city-wide fiber-optic network. It is time for the University to develop its case for its upcoming Capital Campaign, which may eschew bricks and mortar to seek funding for the delivery of learning anywhere, anytime using compressed video, satellite, the Internet, and newly emerging technologies and to train and support its faculty and staff to develop and support these efforts. The Executive Director is responsible for fiscal and personnel management, promoting excellence in learning, securing external funding for technology initiatives, and building a collegial relationship among those benefiting from and those providing these services. The Library, Instructional Technology, Institutional Research, Computer Services will report to the Executive Director.

Required Qualifications: A master’s degree required, with further graduate study in educational technology or a related field preferred; five or more years of responsible leadership in higher education managing one or more of the component areas; a knowledge of distance learning or computer-based technologies; a record of teaching activity, a record of successful grants. The candidate should have a collaborative leadership style and be able to encourage creativity, responsiveness and flexibility in a matrix organization staffed by empowered individuals.

Start Date: the position will be filled upon completion of a successful search, with a start date within 90 days of acceptance.

Salary: Commensurate with qualifications and experience. Includes a full benefits package.

Nominations and Applications: A full application will include (a) a letter of interest clarifying how the applicant satisfies the “required qualifications; (b) a complete resume highlighting elements listed above; (c) the names, titles, addresses and telephone numbers of five colleagues who would provide upon request a current assessment of the candidates qualifications, professional accomplishments and leadership potential. Applications will be accepted until the position is filled. Please address all letters, application materials and inquires to:

THREE LIBRARY POSITIONS
The American University in Cairo

Applications are invited for the following three professional positions. The American University in Cairo is chartered in the United States and accredited by the Middle States Association of Colleges and Schools and other bodies.

ASSISTANT DIRECTOR FOR RARE BOOKS, SPECIAL COLLECTIONS, AND ARCHIVES
As part of the library's senior administration, the appointee will be responsible for overall management of the operations of the Rare Books and Special Collections Library, which houses rare books on the material culture of Egypt and the Middle East, special collections including extensive nonprint resources, and the University Archives. Responsibilities include participation in and/or supervision of collection development, reference and bibliographic instruction, and conservation and reprographic activities. This position also entails significant involvement with development and public relations activities.

Required qualifications include a graduate degree in library science/information management or the equivalent from an accredited program, with a second master's degree desirable; minimum of five years of increasingly responsible professional experience, preferably in special collections librarianship or archival administration; and ability to communicate well in spoken and written English. Fluent Arabic and working knowledge of other languages useful; computer literacy and knowledge of contemporary standards of special collections librarianship essential.

UNIVERSITY ARCHIVIST (Search Extended)
Under the general direction of the Assistant Director for Rare Books, Special Collections, and Archives, the appointee will be responsible for implementing a program to develop, organize, preserve, and provide access to the University Archives according to standard procedures in an automated environment and for collaborating with university administrators to establish a university records management program. The position also involves supervising the processing of special archival collections acquired by the Rare Books and Special Collections Library.

Required qualifications include a graduate degree in archival administration, library science/information management, or the equivalent, with a second master's degree desirable; minimum of three years of professional experience, preferably in archival administration; ability to communicate well in spoken and written English. Working knowledge of Arabic and other languages helpful; computer literacy and familiarity with contemporary archival standards and procedures essential.

COORDINATOR OF SCIENCES AND ENGINEERING RESOURCES
Under the general direction of the Head of Collection Management, the appointee will be responsible for coordinating selection and access to information resources in all formats related to the sciences and engineering and serving as principal liaison with the School of Sciences and Engineering. The position also involves providing both general and specialized reference service, participating in information literacy training, monitoring curriculum and research development, and participating in preparation of proposals for funding special collection development initiatives in subject area.

Required qualifications include a graduate degree in library science/information management or the equivalent from an accredited program, with a second master's degree and experience in a relevant field desirable; minimum of three years of professional experience, preferably in collection management or public services; ability to communicate well in spoken and written English. Fluent Arabic and working knowledge of other languages useful; computer literacy and knowledge of specialized print, nonprint, and electronic resources in sciences and engineering essential.

All are two-year appointments (renewable) beginning September 1997. Salary according to qualifications and experience. For expatriates, housing, round-trip air travel to Egypt, plus schooling for up to two children included. Mail letter of application with curriculum vitae, before March 1, 1997, to:

ISI's Web of Science... Not Just Another Intranet Solution

For nearly 40 years, ISI's Citation Databases have waited for an enabling technology to allow researchers to take full advantage of their richness.

The time has come. ISI's Web of Science—linking research and researchers around the world—is here.

Others may offer Web access. But none can match the power of the navigational and retrieval options made possible only through the links inherent in citation data.

Access to the world's premier research databases, searchable via Web browsers, is now available for loading on local servers.

Offerings include the Science Citation Index EXPANDED™ (offering greater coverage than the print or CD versions), the Social Sciences Citation Index®, and the Arts & Humanities Citation Index®, with our Web interface. Over twenty years of retrospective data and weekly updates to current data are available.
