RETIRES

MYRTLE M. CARROLL recently retired from the library of Florida State University, Tallahassee, Florida. She had been on the staff for sixteen years serving in both the humanities and the social science divisions. For the past seven years she had been head of the Reference Division.

ELEANORE FRIEDGOOD recently retired after more than eighteen years of University of California at Los Angeles service, most of which time she was a member of the cataloging staff of the University Library.

MARY E. POTTs, head of the Catalog Department at the University of Oklahoma libraries, will retire in July of this year. Miss Potts has been in the Catalog Department since 1930.

DEATH

CLIFFORD K. SHIPTON died recently. Mr. Shipton had retired in 1969 as custodian of Harvard University Archives, but he was still active as a historian, and, in particular, as the author of recent volumes of Sibley's Harvard Graduates.

Classified Advertising

NOTICE

Respondents to advertisers offering faculty "rank" and "status" are advised that these terms are ambiguous and should inquire as to benefits involved.

All advertisements submitted by institutions offering positions must include a salary range. The range should provide the applicant with an indication of the salary the institution is willing to provide for the position offered.

All advertisements for the Positions Wanted and the Positions Open classifications will be edited to exclude direct or indirect references to race, creed, color, age, and sex as conditions of employment.

Classified advertising orders and copy, and cancellations, should be addressed to the Advertising Department, 50 East Huron Street, Chicago 60611, and should reach that office before the second of the month preceding publication of issue desired. Copy received after that time may be held for the next issue.

Rate for classified advertising is $1.30 per printed line. No additional charge is made for nonmember advertising.

Something Special for Librarians.

**ACTS** is our way of saying Acquisitions, Cataloging, Technical Systems. In a word, it sums up a very special library service which offers you the quickest, most comprehensive and accurate way we know to catalog, verify and acquire books.

**ACTS** gives you a data base of over 610,000 authoritative catalog records. Included are English language titles, 38,000 foreign records, retrospective titles, titles listed in BCL and BJCL, and other important bibliographies.

**ACTS** is a service that lets you catalog, process, order books in seconds.

**ACTS** is the only program on the market today that offers this quality and quantity at a cost of $840.

We'd like to tell you more about the Richard Abel Company ACTS program. And we'd like to demonstrate exactly what we mean when we say, we have something special for librarians. Just mail the coupon or phone 800-547-3551 toll free.

Thousands of subjects are covered in the more than 10,000 books, booklets, exhibit catalogs, films, and other media which are available for sale or distribution by the 732 museums, galleries, art institutes, and similar institutions included in Museum Media.

The key to the institutionally-arranged volume is an exhaustive 492-column Title and Keyword Index. This index lists not only the titles of the materials but also makes it possible to find materials according to the artists, works, media, periods, concepts, subjects, movements, and countries mentioned in their titles. Thus, the index provides direct references to authoritative, often unique materials dealing with innumerable specialized topics.

Because its keyword index makes possible a direct subject approach, Museum Media serves as both a reference source and acquisition aid for librarians, students, museum and gallery personnel, researchers, and others interested in using the previously hard to locate materials currently available from museums and other primary sources.
Science Citation Index— the uniquely effective search tool that organizes the world's current scientific journal literature by the authors' own reference citations — retrieves more pertinent articles on almost any given subject, faster, than any other reference of any kind.

It's the one multi-disciplinary retrospective search tool that serves all departments because it covers all scientific subjects with unmatched authority. It's the one reference that finds material that gets lost in the limitations of conventional, subject-oriented literature indexing systems.

SCI® makes use of an indexing system that follows scientists' own traditional method of literature searching — that of locating articles related to their subject interests by examining reference citations of articles known to be relevant. The technique is called “citation indexing”. And the SCI is the only comprehensive index to the journal literature that offers it.

The Science Citation Index is the one standard literature-search reference that no library serving the scientific community can afford to be without. If your library doesn't yet have this most useful of all literature retrieval tools ... used by libraries large and small ... bring your search capabilities up to date now. And plan extra sets for branch and departmental libraries where they can do the most good for your entire organization. (Special matching grants are available to smaller departmental and branch libraries to make it economical to obtain multiple sets of SCI.)

For more on what the Science Citation Index can do for your library, send for our new brochure.

Dept. 12-300, 325 Chestnut St., Phila., Pa. 19106, (215) 923-3300
BRI covers every review appearing in 235 magazines and newspapers. It covers all the major literary and educational periodicals. It also provides access to the more specialized media which yield useful insights on books dealing with arts and crafts, business and economics, religion and philosophy, minority affairs, and other contemporary concerns.

Each year BRI covers 65,000 reviews of over 35,000 books.

THE BIMONTHLY PUBLICATION
$45 per year. New subscribers receive an 8½" x 11" loose-leaf ring binder. Published February, April, June, August, and December. (For convenience in using BRI, the April, August, and December issues cumulate the previous issue.)

ANNUAL CUMULATIONS
Bound volumes cumulating the contents of a year’s issues of BRI are prepared immediately after publication of the December issue.

- Bound volumes for 1969 and later years are $45 each, available as follows:
  - 1972 cumulation: in print
  - 1973 cumulation: ready early 1974

A NOTE ON THE HISTORY OF BRI
BRI was first inaugurated in 1965 as a periodical and continued through 1967. Clothbound cumulations were published after each year’s December issue.

In 1968, the periodical was suspended, due to mechanical difficulties and inadequate customer support. A clothbound cumulation was published for 1968, but no further issues or bound volumes appeared until 1972.

The suspension caused a flurry of queries from libraries who recognized BRI as a “basic reference tool” (to quote from CHOICE). As time passed, the demand for BRI increased.

In 1972, Gale resumed publication of periodical issues. At the same time work commenced on retrospective indexing to fill in for the missing years.

The 1972 cumulation is in print. The 1973 cumulation is scheduled for early publication. Bound volumes for 1969, 1970, and 1971 are being worked on.

Listing in Book Review Index provide author's name, title of book, reviewing publication, date and page of review.
WHAT SHOULD A BOOK JOBBER DO FOR YOU?

He should —

- find and deliver any book in print as quickly as possible,
- provide you with accurate reports on unavailable titles,
- use special procedures and reports to complete rush orders,
- meet your library and business office invoicing requirements,
- respond promptly to inquiries,
- accept reasonable "returns" without prior permission,
- provide competitive discounts.

And this is what the Book House does for you!

You, as librarians, carefully choose the right books for your library and we make the earliest possible delivery.

We are not "book sellers" working for the publishers — we are working for you! We work to deliver the books you select.

This is the way we see our job and this is the way we do it. Why not give the Book House a trial order and see what our "Concerned Service" can do for you!

Announcing the first volume of

First Printings of American Authors

December publication planned for beginning of four-volume guide to first editions of 1,000 U. S. authors

- Modern scholarship and contemporary resources used to compile definitive record far exceeding scope of Merle Johnson's American First Editions and similar works
- Bruccoli and Clark are General Editors, assisted by fifty specialists and large advisory board
- New series will be handsomely typeset and bound, with portraits of each author, numerous facsimile pages, and other illustrations

First Printings of American Authors, recording the first book appearances of the works of over 1,000 important authors from Colonial times to the present, has been announced by the Gale Research Company, Detroit.

More than 150 of the expected 250 bibliographies in the first volume have already been completed, and publication is tentatively being planned for December, 1974. Succeeding volumes will appear six to nine months apart.

First Printings includes both early and modern authors not in Merle Johnson's American First Editions as well as greatly enlarged and updated listings for those Johnson mentioned. A unique feature will be the inclusion of English firsts.

Coverage in the first volume ranges from Henry Adams, Auchincloss, and Auden through Thoreau, Vonnegut, and Whitman. Subsequent volumes will have equally broad coverage. A cumulative index will appear in successive volumes.

Editors of First Printings are Matthew J. Bruccoli, professor of English, University of South Carolina, and C. E. Frazer Clark, Jr., noted collector. Assisting them are more than fifty widely known bibliographers, collectors, curators, librarians, book dealers, and other book world figures who have special expertise and resources which enable them to prepare authoritative reports on their subjects.

- Illustrations supplement bibliographies
The basic part of each author's listing will be, of course, compact bibliographic descriptions of each of his books as first published in both America and England. Each listing will include a portrait of the author. In addition, facsimile title and text pages, photographs of bindings, etc., will be used where appropriate to highlight unusual features of a book or to illustrate a particularly important work.

The set is being carefully designed in a handsome format, 8 1/2 x 11 inches in size, and will be composed, printed, and bound in the best traditions of bookmaking.

- 10% Prepublication Saving Offered
The price of First Printings of American Authors is $140.00 for the four volumes. A special prepublication discount of $14.00 will be allowed, however, reducing the price to $126.00.
