SPECIAL ED.D. PROGRAM IN
EDUCATIONAL ADMINISTRATION,
PSYCHOLOGY AND COUNSELING.

The PSU London Summer Program
July 5th — August 14, 1976
If you want your Ed.D. completed in
1976 — you must act this week!

If traditional academic obstacles have delayed the
completion of your much needed doctorate, Pacific
States University’s London Program may be of vital
importance to your career.

All of the essential elements of a doctoral pro-
gram are contained in PSU’s London Program —
only the “time lag” has been removed.
• Each summer PSU flies outstanding scholars to
Europe, to staff our London Program.
• Mid-career educators and psychologists from all
over the world journey to PSU’s London Program to
complete their doctoral degrees.

• Traditional residency requirements are waived, because PSU
recognizes graduate studies completed at other recognized univer-
sities.
• The graduate courses you have completed in your major, from
past years, are fully acceptable by PSU.
• You may complete your dissertation in your own locality,
with a field advisor who meets with PSU’s approval, without
leaving your present position.
• PSU will evaluate your professional experience to qualify you
— a minimum of six years successful professional experience is re-
quired. Librarian’s experience will qualify you.

Seminars are conducted on the new Brunel University Campus.
A student may live on campus for as little as $14 per day (in-
cluding meals). If you wish, bring your family for a summer holi-
day in England — accommodations are available.

To help us expedite the handling of your in-
quiry, please provide us with the following infor-
mation by letter:
The number of graduate units you have earned.
The number of years of professional experience
you have had.
The subject of your proposed dissertation.
Tuition for PSU’s London Summer Program is
$700. Tuition for fall semester is $650 and tuition
for our spring semester is $650.

DICTIONARY

5th Edition Published in 3 Volumes

The 5th Edition of AIAD is over 25% larger than the previous edition. While the emphasis is on American material, AIAD includes terms from Britain, France, Germany, Russia, and other countries. Its 130,000 entries span the centuries, from the ancient Roman “SPQR” to acronyms growing out of current concerns over fuel, the economy, and ecology.

NAIA provides current coverage of all the fields in Volume 1, with special emphasis on keeping subscribers up-to-date in rapidly changing fields, such as technology, politics, world affairs, medicine, social welfare, and education. The 1976 supplement is expected to contain over 10,000 new terms, and the 1977 supplement will add several thousand additional terms and will cumulate all the terms in the first supplement.

Based on Volume 1, this “backwards” dictionary contains 130,000 entries arranged alphabetically by complete words or terms, with the acronyms as definitions. With the aid of RAIA-D, researchers are able to know the short forms of the names of organizations, technical terms, etc.

TWO MAJOR NEW SUBJECT DICTIONARIES
Each with Supplement Service for Greatest Usefulness!

Emphasizing consumer products, TND contains 106,000 entries for trade-named products and their manufacturers. Product entries give: trade name, brief description, manufacturer, and a code identifying the source of the information. Name and address listings for thousands of manufacturers are included in the same alphabet.

"Given the trade name of any consumer product now used in America, Gale's Trade Names Dictionary... will probably be the best source to quickly link that name to its product description and the manufacturer, distributor, or importer thereof." (R.Q. Summer 1975)

The 1976 supplement will contain about 12,500 new entries for consumer products and their manufacturers. The 1977 supplement will add over 10,000 more entries and will cumulate all entries from the first supplement.
