The Art Institute of Chicago's Ryerson and Burnham Libraries have been awarded $750,000 by the Andrew W. Mellon Foundation. The funds, which are part expendable and part to be matched for endowment, will be used to enhance control over the existing collection and to increase access to outside electronic information resources. The two libraries together form the second-largest art museum library in the country, with strengths in architecture, decorative arts, and French art.

An association of five Los Angeles university and college libraries has received a joint grant of $155,000 from the W. M. Keck Foundation. The funds will be used to install a high-quality electronic telecommunication system to share journal articles vital to research in engineering and science. The network will link the libraries at the Claremont Colleges, Occidental College, the California Institute of Technology, the University of California, Los Angeles, and California State Polytechnic University, Pomona. The participating libraries will acquire microcomputer workstations equipped with scanners, laser printers, and Ariel software, and connect them to the Internet.

Harvard University's Harvard-Yenching Library has been awarded a grant of $53,500 by the Department of Education's Foreign Periodicals Program. The grant will allow the library to acquire microfilm copies of the backfiles of 15 provincial newspapers published in the People's Republic of China from the early 1950s to the mid-1980s and the microfilm backfiles of other newspapers published in South Korea, North Korea, and Japan. Acquiring these materials will fill major gaps in the library's holdings of East Asian newspapers and periodicals.

The University of Arkansas at Little Rock's Ottenheimer Library was awarded $375,000 by the National Endowment for the Humanities to strengthen its humanities collections. In addition, $125,000 was awarded by the Jonsson Foundation and $7,500 by the Trinity Foundation to assist library technological development.

The University of Calgary's history librarian, Nora D. S. Robins, is the recipient of two Social Science and Humanities Research Council of Canada Support to Specialized Collections grants. A supplemental grant of $12,000 was awarded for the acquisition of material for the military/diplomatic history collection, which had received $20,000 in 1992-93. The major acquisition will be War Time Translations of Seized Japanese Documents (2,212 microfiche). The second grant was for $2,500 toward the acquisition of material in Mexican history.

Professor Ray Larson at the University of California, Berkeley's (UCB) School of Library and Information Studies has received a $117,770 Title IIB grant from the U.S. Department of Education for the first year of the CHESHIRE Demonstration and Evaluation Project. The CHESHIRE system, an experimental online catalog developed by Larson, will be implemented in UCB's Astronomy-Mathematics-Statistics Library. It will deploy the next-generation system of advanced information-retrieval techniques in a working library environment and evaluate its use and acceptance by local library patrons and remote network users.

The University of Illinois at Urbana-Champaign's Mortenson Center for International Library Programs has received a $180,000 grant from the Andrew W. Mellon Foundation to support a training and professional development program for Central American academic and research librarians. The grant will allow the center to bring up to 10 librarians from Costa Rica, El Salvador, Guatemala, and Nicaragua to the university library. Three to five

Acquisitions

The Hancock Family Papers, the business papers of Boston merchant Thomas Hancock and his nephew John, the revolutionist, have been acquired by the Baker Library at Harvard University. The papers were on loan to the library from the Historic Genealogical Society and were acquired in honor of Mary Chattfield, former librarian of Baker Library. The collection, which also includes the papers of publisher Daniel Henchman (father-in-law of John Hancock) and the business records of Peter Faneuil, contains a range of information on the social, economic, and material culture of colonial New England, complementing other collections on 18th-century life in the library's Historical Collections Department.

The preparation of photographer Harold Edgerton's papers for access has been completed by the Massachusetts Institute of Technology (MIT) Archives. The core of the collection documents Edgerton's research activities in his laboratory at MIT, his research and development work for the U.S. military in World War II, and his field work applying flash photography and sonar techniques to underwater exploration. His laboratory notebooks are a consistent record of his research at the institute from 1930 to 1990 and are a valuable resource for learning how advances in science and technology are made. They illustrate through notes, diagrams, data, and photographs the step-by-step evolution of his ideas.

The archives of the National Network of Hispanic Women, a national resource center that links professional women with one another and strives to provide role models for young Hispanics, have been acquired by the California Ethnic and Multicultural Archives (CEMA), part of the University of California, Santa Barbara's Special Collections. The collection records the accomplishments of Chicanas in the areas of education, politics, and the arts, and provides a substantial addition to the Chicano/Latino component of CEMA.

A gift of 573 historical children's books; 17th-, 18th-, and 19th-century finely printed books; and modern works on the history of children's literature has been received by the University of Arizona from Margaret Maxwell, recently retired professor of library science, who taught award-winning cataloging classes. High spots in the collection include a representative sampling of late-19th-century textbooks, several 19th-century chapbooks, a 1650 Elzevir imprint, and an Isaiah Thomas printing of the Holy Bible dated 1793.

A collection of 25,000 items related to the Equal Suffrage League of Virginia and its successor, the Virginia League of Women Voters, has been accessioned by the Virginia State Library and Archives and is now available for use by researchers and historians. The collection was originally given to the library in 1942 by Ida Mae Thompson, a clerk with the Works Progress Administration Historical Records Survey. It contains correspondence, organizational records, newspaper clippings, buttons, postcards, and other items documenting the League's efforts to win the vote, as well as to pass child labor law reform and food and drug regulations.

 librarians will be selected for the first year of the two-year program and will arrive at the university in May 1994.

The University of Saskatchewan Libraries, Saskatoon, Canada, have received a grant of $16,000 from the Social Sciences and Humanities Research Council of Canada in support of their agricultural collection. The award will be used to purchase the Food and Agricultural Organization documents collection in full-text microfiche from 1988 to the present.

(Washington cont. from page 218) column is urgently needed. If you are not part of your state's library delegation to Legislative Day on April 19, then write to your representative and senators in support of restoration of funds for HEA II college library technology, research library resources, and research and education programs. Libraries are the infrastructure for education and research. The federal stimulus for HEA II activities is needed to make meaningful the goal of connecting every school and library to the information superhighway. Please send a blind copy of your letter to the ALA Washington Office so we can make use of your examples.
