CAP Project Workshop

The Association of Research Libraries (ARL) Office of Management Studies and the Massachusetts Institute of Technology (M.I.T.) libraries are sponsoring a workshop on the Collection Analysis Project (CAP) on November 7. CAP is a self-study procedure aimed at assessing and improving academic libraries' collection development practices. This regional workshop will describe the operation and results of CAP at the M.I.T. libraries. The issues to be covered will include methodology and philosophy of the CAP self-study, the role of the library director in CAP, major issues addressed in CAP, results of the program at M.I.T., and developmental impact on staff of self-studies. The workshop will be from 9:30 to 4:30 at M.I.T., Cambridge, Massachusetts. The fee is $25 prepaid to the ARL Office of Management Studies. For further information contact Office of Management Studies, 1527 New Hampshire Ave., N.W., Washington, DC 20036, (202) 236-8565.

MELA/MESA Meeting

The Middle East Librarians Association (MELA) will hold its seventh annual meeting on Wednesday, November 8, 1978, in Ann Arbor, Michigan, in conjunction with the annual meeting of the Middle East Studies Association (MESA) of North America. The Library of Congress' policies and practices in handling Middle Eastern materials will be the subject of morning reports by members of MELA's July visiting group to LC, who will also point out current problem areas and suggest possible closer LC-MELA cooperation. Michael Albin, LC's Cairo field office director, will report informally on his office's activities. The annual business meeting, to include election of new officers, will occur in the afternoon. Further details are available from Janet Heineck, Secretary-Treasurer of MELA, Room 560, University of Chicago Library, Chicago, IL 60637. For more information about the MESA meeting please write to MESA Headquarters and Secretariat, 50 Washington Square S., New York, NY 10003.
An essential reference for collectors, librarians, parents and teachers, and radio and TV program directors.

Classical Music Recordings for Home and Library

RICHARD SWEENEY HALSEY

This handbook provides assistance to both individuals and organizations interested in musical recordings and music appreciation.

The main section is a discography that helps identify the best recorded performances of composers' works. Especially valuable features are the accessibility ratings, which enable the unfamiliar listener to proceed step by step in increasing his comprehension of "difficult composers," and the ratings that show suitability by age of listener. From the 43,000 recorded compositions considered for the discography, 4,000 were selected. Ratings for titles and specific recorded versions were reached by painstakingly seeking and confirming consensus judgments of musicologists and eminent reviewers. Radio stations, music critics, private collectors, editors of recording reviews, record company executives, and computer facilities contributed opinion and data.

Other chapters in the book give guidance to organizations with record holdings in systematically selecting, ordering, programming and caring for them.

Halsey's work is an essential reference guide for individual collectors, librarians, and all types of music educators and administrators who wish to contend successfully with the complex world of interpreted music on disc and tape recordings.
