Announcing the first volume of

First Printings of American Authors

December publication planned for beginning of four-volume guide to first editions of 1,000 U. S. authors

- Modern scholarship and contemporary resources used to compile definitive record far exceeding scope of Merle Johnson's *American First Editions* and similar works
- Bruccoli and Clark are General Editors, assisted by fifty specialists and large advisory board
- New series will be handsomely typeset and bound, with portraits of each author, numerous facsimile pages, and other illustrations

First Printings of American Authors, recording the first book appearances of the works of over 1,000 important authors from Colonial times to the present, has been announced by the Gale Research Company, Detroit. More than 150 of the expected 250 bibliographies in the first volume have already been completed, and publication is tentatively being planned for December, 1974. Succeeding volumes will appear six to nine months apart.

First Printings includes both early and modern authors not in Merle Johnson's *American First Editions* as well as greatly enlarged and updated listings for those Johnson mentioned. A unique feature will be the inclusion of English firsts. Coverage in the first volume ranges from Henry Adams, Auchincloss, and Auden through Thoreau, Vonnegut, and Whitman. Subsequent volumes will have equally broad coverage. A cumulative index will appear in successive volumes.

Editors of First Printings are Matthew J. Bruccoli, professor of English, University of South Carolina, and C. E. Frazer Clark, Jr., noted collector. Assisting them are more than fifty widely known bibliographers, collectors, curators, librarians, book dealers, and other book world figures who have special expertise and resources which enable them to prepare authoritative reports on their subjects.

- Illustrations supplement bibliographies
The basic part of each author's listing will be, of course, compact bibliographic descriptions of each of his books as first published in both America and England. Each listing will include a portrait of the author. In addition, facsimile title and text pages, photographs of bindings, etc., will be used where appropriate to highlight unusual features of a book or to illustrate a particularly important work.

The set is being carefully designed in a handsome format, 8½ x 11 inches in size, and will be composed, printed, and bound in the best traditions of bookmaking.

- 10% Prepublication Saving Offered
The price of First Printings of American Authors is $140.00 for the four volumes. A special prepublication discount of $14.00 will be allowed, however, reducing the price to $126.00.

Cumulations of LC’s “Additions and Changes” Through 1973
Now Being Published

The usefulness of Gale's previous cumulations of additions and changes to Library of Congress classification schedules was praised by Jeanne Osborn in her review appearing in RQ (Winter, 1973): "Not just catalogers, but all librarians affected by the search problems involved in keeping up-to-date on LC classification are grateful for this more readily digestible bread which Gale provides us."

Users have found that the cumulations keep them abreast with the ever growing subject areas and the constantly changing theory of subject classification.

To maintain the proven usefulness of these tools, Gale is now publishing cumulations of additions and changes through 1973. Without these or the previous Gale cumulations, catalogers and technical services librarians wishing to check current LC cataloging practice in a subject area would have to search in as many as 45 different sources. As Ms. Osborn indicated, Gale provides a simple search formula: "We look first at the latest edition of the schedule, regardless of its reissue date, and second at the corresponding cumulation volume."

Each of the 31 cumulations contains the changes and additions for a particular schedule, in one sequence within one binding. These easy-to-use softbound cumulations cover all changes and additions between the latest editions of the basic schedules and December, 1973. Also included in the cumulations are supplementary pages bound in reprints of the basic schedules, as well as additions, eliminations, and changes of classification numbers and the subject terminology covered by these numbers. Page size, type faces, and other physical details of the Gale cumulations are identical with LC's current quarterly notices of additions and changes.

A full set of these time-saving professional tools costs $650.00. Gale's experience with the previous cumulations shows that many libraries need more than one set. Therefore, additional sets are available for $375.00 each. The 31 cumulations can be purchased separately—prices will be furnished on request.

Library of Congress Classification Schedules: Cumulations of Additions and Changes through 1973. Edited by Helen Savage. LC Card No. 76-168560. ISBN 0-8103-0765-0. The first of the 31 cumulations are already in print; the remainder will be published by the end of the year. Please write for complete information.
