According to the latest SPEC kit and flyer, Resource Sharing in ARL Libraries (no. 42, March 1978), there is growing interest in resource-sharing activities among ARL members, as they seek to expand the base of materials available to users and to reduce spiraling collection development costs. The kit and flyer, based on a recent Systems and Procedures Exchange Center (SPEC) survey of ARL members, note that most ARL members participate in more than one type of resource-sharing activity, ranging from quite informal understandings among a few similar libraries to more formalized, multifaceted cooperative arrangements. The 108-page kit contains 16 documents from ARL libraries covering policies and procedures, program descriptions, planning and evaluation, reports and recommendations, and selected references.

The two-page flyer discusses current issues, including benefits and costs, local versus shared collections, concern with faculty resistance, and cooperative collection development policies. The kit and flyer, based on a recent SPEC survey of ARL members, note that most ARL members participate in more than one type of resource-sharing activity, ranging from quite informal understandings among a few similar libraries to more formalized, multifaceted cooperatives, consortia, or networks that operate over a large region or nationally.

An equal opportunity affirmative action employer.
Help your library patrons discover their families' "roots" with the new edition of

**AMERICAN & BRITISH GENEALOGY & HERALDRY**

A Selected List of Books, 2d Edition

P. William Filby, Director of the Maryland Historical Society and a former Chairman of the Genealogy Committee, Reference Services Division, ALA.

This invaluable reference source is a compilation of genealogical works intended for the study of family origins and for building genealogy collections. Materials published up to January 1, 1975 are included in the work. The more than 5,200 best and best-known titles in genealogy and heraldry in the bibliography are fully annotated, giving information to the researcher and the librarian on the strengths, weaknesses, and general value of the works. The index contains more than 10,000 entries.

"This can serve as a buying guide and research aid by librarian and patron alike."

Wilson Library Bulletin—September 1976

"Highly recommended for purchase by all libraries ... no other book like it."

Choice—November 1976

"All genealogists will find this bibliography of great value."

The Genealogical Helper—July 1976

"... a must for every genealogical researcher and library worthy of the name."

If you haven't browsed through an issue of Booklist lately, you're in for a big surprise.

Booklist has changed in many ways. From cover to cover. Inside and out. In appearance and in content.

For example, by working with publishers' galleys, we now review many titles in advance of publication.

We are also packing more reviews into each issue. Reviews of more than 5,000 books and 1,600 nonprint items were published in the last volume year.

And remember, with the exception of those in the Reference and Subscription Books Section, every review in Booklist is a recommendation to purchase.

Remember, too, that Booklist is the only review medium that includes Dewey Decimal classifications and Library of Congress subject headings with each review.

The idea, of course, is to provide as much helpful information as possible on new books and nonprint material to assist you in making sound selections for your library or school media center.

This is why, in addition to our regular reviews, new columns have been added to the first-of-the-month issues. Cookbooks, Plants and Gardening, Paperback Nonfiction, Series and Editions, First Novels, Science Fiction, Westerns and Video.

Listings of recent Paperback Reprints also appear in the adult and children's sections of this issue.

In addition, special features such as Adult Basic Education, Canadian Books, Popular Reading for Children, Professional Reading, and Slides appear in Booklist periodically.

Booklist, Over 38,000 libraries subscribe to it. And for one reason—the reviews. Reviews that are better than ever. But don't just take our word for it. Rediscover Booklist.

Fill out and mail the coupon below. If you like, we'll send you the latest issue of Booklist with our compliments. Look us over. Review our reviews. There's no obligation to subscribe. But, be warned: you may be so pleased with just one issue of Booklist that you won't be able to wait to come back for more.
An essential reference for collectors, librarians, parents and teachers, and radio and TV program directors.

Classical Music Recordings for Home and Library

RICHARD SWEENEY HALSEY

This handbook provides assistance to both individuals and organizations interested in musical recordings and music appreciation.

The main section is a discography that helps identify the best recorded performances of composers' works. Especially valuable features are the accessibility ratings, which enable the unfamiliar listener to proceed step by step in increasing his comprehension of "difficult composers," and the ratings that show suitability by age of listener. From the 43,000 recorded compositions considered for the discography, 4,000 were selected. Ratings for titles and specific recorded versions were reached by painstakingly seeking and confirming consensus judgments of musicologists and eminent reviewers. Radio stations, music critics, private collectors, editors of recording reviews, record company executives, and computer facilities contributed opinion and data.

Other chapters in the book give guidance to organizations with record holdings in systematically selecting, ordering, programming and caring for them.

Halsey's work is an essential reference guide for individual collectors, librarians, and all types of music educators and administrators who wish to contend successfully with the complex world of interpreted music on disc and tape recordings.
