Classified Advertising

NOTICE

Respondents to advertisers offering faculty "rank" and "status" are advised that these terms are ambiguous and should inquire as to benefits involved.

All advertisements submitted by institutions offering positions must include a salary range. The range should provide the applicant with an indication of the salary the institution is willing to provide for the position offered.

All advertisements for the Positions Wanted and the Positions Open classifications will be either direct or indirect references to race, creed, color, age, and sex as conditions of employment.

Classified advertising orders and copy, and cancellations, should be addressed to the Advertising Department, 50 East Huron Street, Chicago 60611, and should reach that office before the second of the month preceding publication of issue desired. Copy received after that time may be held for the next issue. Rate for classified advertising is $1.30 per printed line. No additional charge is made for nonmember advertising.

POSITIONS OPEN

Administration

RESEARCH LIBRARIAN to assist head of Research Development Unit in the planning, design and conduct of research projects related to the activities and operations of the Purdue Univ. Libraries and Audio-Visual Center. The Research Development Unit is concerned primarily with the conduct of research rather than the provision of reference service or the compilation of bibliographies. Additional duties include reference activity, plus leadership responsibility in a technical activity. Qualifications: MLS or equivalent professional degree and a combination of 2 years' professional experience, preferably in a science library. Science subject background highly desirable. Faculty status, some moving experience, TIAA/CREF, Salary $10,500 up depending on qualifications. Open Dec. 1. Send resumes to Dr. G. Donald Smith, Dir. of Ls., Washington State Univ., Pullman, Wash. 99163. An equal opportunity employer.

REFERENCE DEPARTMENT HEAD. Librarian with strong capacity for leadership to direct activities of staff of 7 in comprehensive reference program including instruction, outreach, and computer-assisted information services. MLS, 5th-year library degree and minimum of 2 years' experience in serials cataloging in a large academic library, and cataloging. Salary $12,000. Send resume, placement office credentials and 3 references to Nancy Maxwel, Asst. Ln., Oklahoma State Univ., Stillwater, Ok. 74074.
Will the real ISI please stand up?

If you're a librarian in a scientific or technical library, chances are you've heard of the Institute for Scientific Information. But the chances are equally good that what you've heard isn't the complete story.

For instance. Do you know how long ISI has been around? How many people we employ? How our services are produced? What disciplines we cover? What kind of training we offer to people who use our services?

To fill you in, we've produced an all-new, color-sound film—Putting Scientific Information To Work. It takes an inside look at ISI from our origin and development to what's happening now.

Putting Scientific Information To Work can be shown to your library staff for its clear picture of the scientific information explosion and how ISI's data bank and retrieval systems have turned scientific information into a valuable resource instead of a problem. Or show it to the research staff of your organization—especially if you subscribe to any ISI services. It's a good way to familiarize researchers with some of the services your library offers. Or if you're not a subscriber to an ISI service—but would like to be—the film can help you build researcher support for future acquisitions.

We think Putting Scientific Information To Work is a bright and informative introduction to ISI. It combines live action with an animation sequence so fine that it took third prize among 200 entries at the 2nd International Animation Film Festival in New York.

If you'd like to borrow this new 22-minute film, without obligation, simply fill in the coupon and return it to us. Or maybe you'd prefer to make the film part of an ISI information seminar. Then check the square at the bottom of the coupon; one of our information specialists will be in touch.

INTRODUCES NEW EDITIONS OF STANDARD REFERENCE WORKS AVAILABLE ON STANDING ORDER

VOLUME 4/1974, JUST PUBLISHED

LIST:

LIST, Volume 4/1974, documents 1,362 research efforts, books and monographs in preparation, and innovative activities involving 2,592 personnel active in library and information services throughout the world. This registry helps to avoid duplication of effort, to locate emerging data sources, to speed access to research-in-progress, to find out which experts to contact when authoritative information is needed, and to determine possible sources for project funding. For the first time, project descriptions are arranged in five broad subject areas which are broken down into over 30 convenient subdivisions. Each listing gives: principal investigator(s), address, title and description of project, source of funding, etc. Eight indexes: investigators, organizations, geographic location, funding source, title of project, type of library, classified headings, and subject and acronym.

FIFTH EDITION, READY DECEMBER, 1974

RESEARCH CENTERS DIRECTORY:

Revised, updated, and expanded, the new edition is the only comprehensive guide to over 6,000 active sources of advanced knowledge in hundreds of fields as represented by current work on campuses and elsewhere throughout the U.S. and Canada. Arranged by major subject fields, entries provide: name, address, phone number, director’s name, status of unit, sources of support, annual budget, principal fields of activity, special facilities, publications, seminars, and library facilities. RCD-5 contains a thorough index of more than 2,000 subjects.

FOURTH EDITION, JUST PUBLISHED

STATISTICS SOURCES:

Completely revised and updated, the fourth edition contains 21,000 references, an increase of 5,000 over the last edition (published 1971). Current sources are cited on about 11,800 subjects. Indexed are such sources as annuals, yearbooks, and other printed materials issued by trade associations, professional societies, commercial concerns, colleges and universities, departments of the U.S. government, agencies of foreign governments, and the U.N. and its related organizations. Some organizations, government agencies, and trade and professional groups are cited if they are important sources of unpublished data. The sources not only provide users with basic statistics, but also lead them to further sources of detailed information. The subjects treated are arranged in alphabetical order, with frequent cross references to aid in locating specific subjects.
