Texas Tech dedicates new library
Pulitzer Prize-winning biographer David McCullough's address highlighted Texas Tech University's dedication of its new $8.8 million Southwest Collection/Special Collections Library this fall. McCullough said, "Your collection of Southwest history will become very important. It's going to bring students, scholars, and people who do the kind of work that I do to your campus. They are going to discover what's happening here, and discover the pleasures and the stimulation of being in this community and in this state—and it's going to be good for everybody."

The new building, designed by Komatsu/Rangel, Inc. of Forth Worth, provides almost 78,000 square feet of climate-controlled floor space and is home to the Southwest Collection, the Vietnam Archive, the Rare Books Collection, the University Archives, and the Hoblitzele Conservation lab.

The fast-growing Vietnam Archives, established in 1989, include donations of books and papers from national figures including the late CIA director William Colby, state department official Douglas Pike, and the National Vietnam Veterans Coalition.

Texas Tech joins ARL
Texas Tech University has been admitted to membership in the Association of Research Libraries (ARL) bringing to 121 the number of institutions that are members.

Dean of Libraries E. Dale Cluff said, "Membership in ARL is indicative not only of a university administration's commitment to its library system but also its commitment to research and to advancing the body of knowledge. Texas Tech has shown that commitment and ARL membership is another milestone that denotes success in our ongoing quest for academic excellence." ARL membership had been a goal of Cluff's since coming to the university in 1982.

Membership in ARL is extended to a university after it meets stringent standards that factor in doctoral degrees, expenditures for library services and materials, staffing, the number of books and journals, and the qualities of collections.

Texas Tech was invited to join ARL after a unanimous vote of the ARL Board and membership-at-large at the May annual meeting. Texas Tech is the first new library added to ARL in the past five years.

AAMES opens Web site
ACRL's Asian, African, and Middle Eastern Section (AAMES) opened its homepage at http://www.niu.edu/depts/library/aames.html. The site, designed by Robert Ridinger of Northern University, includes information about the history of the section and upcoming programs. AAMES members who can supply missing information for the program timeline should contact Ridinger at c60rbr1@corn.cso.niu.edu. The site may also be reached from ACRL's homepage at http://www.ala.org/acrl.html.

Candidates for ALA President announced
Martin Gomez, executive director of the Brooklyn Public Library, and Sarah Long, director of the North Suburban Library System...
have been nominated by ALA’s nominating committee to run for president of ALA for the 1999–2000 term.

ALA members will vote on the spring 1998 ballot. The candidate elected will serve as ALA-president-elect in 1998–99 becoming president the following year.

The March C&RL News will feature statements from both candidates.

Living the Future II in Arizona
The University of Arizona Library is sponsoring the “Living the Future II: Organizational Changes for Success” conference to be held April 21–24, 1998, in Tucson, Arizona. This is a follow-up to the 1996 “Living the Future: Organizational Change and Process Improvement” conference.

Meg Wheatley and Ernest B. Ingles will give the keynote address. Wheatley is known for her book Leadership and the New Science: Learning about Organizations from an Orderly Universe, which is credited for changing the thinking about organizational structure.

Ingles has achieved prominence for his strategic planning initiatives; the planning and building of a Canadian university’s first remote storage and document supply facility; and his award-winning, cost-containment initiatives.

Papers and poster sessions will focus on partnerships, information literacy, new services and their impact on organizations, human resource issues, and organizational changes.

Registration and accommodation information may be found on the Web at http://www.library.arizona.edu/conference/ltf2.htm.

Call for contributors
McJournal: The Journal of Academic Media Librarianship is seeking contributors for its spring 1998 issue, which will have a special section on bibliographies, mediographies, and Web resource lists. Ideas include a bibliography on new technologies or instruction techniques; a mediography on a “hot topic”; or a Web list of av producer sites or cataloging issues. Compilations and research articles are due by March 16 and should be submitted via e-mail to Lori Widzinski, editor at widz@acsu.buffalo.edu. Details may be found at http://wings.buffalo.edu/publications/mcjml.

Marquette Univ. receives $10 million gift for new library
Marquette University received a $10 million gift to construct a new library from an anonymous alumnus and his family. The gift will be structured as a challenge grant requiring the university to seek additional donations to match the $10 million.

The library will be named in honor of the Rev. John P. Raynor who served as Marquette’s president for 25 years and who died in November at the age of 74. Days before his death, Raynor met with the donor and was told about the planned gift.

“[Raynor] believed, with his whole heart, that Marquette’s particular approach to the work of educating young men and women in the Jesuit tradition was a powerful force for good in the world. I am glad to be able to play a role in achieving a goal that pleased him very much: the creation of a new library to serve new generations of Marquette students,” said the anonymous donor.

Marquette’s current library was built in 1953 and expanded in 1971. The university recently completed a planning study to assess future library needs and the Board of Trustees endorsed the new construction option and voted unanimously to name the new library in Raynor’s honor.

“University libraries are more and more becoming not just repositories of materials but extensively utilized learning centers,” said Nicholas C. Burckel, Marquette’s director of libraries. “I see the new library serving as the intellectual commons for the campus. As
student learning becomes more collaborative and less solitary, as faculty cross disciplinary boundaries in technology, our library will become even more central to Marquette's teaching and research mission."

Date set for "Learning to Teach" preconference
The ACRL Instruction Section's preconference "Learning to Teach" will be held on Friday, June 26, 1998, at the ALA Annual Conference in Washington, DC. Details about the preconference were given in the January issue of C&RL News and may be found on the Web at http://www-leland.stanford.edu/~mesora/ACRLIS/precon.html.

ACRL publishes promotion and tenure book
ACRL has published Criteria for Promotion and Tenure in Academic Libraries, CLIP Note #26. Compiled by Virginia Vesper and Gloria Kelley, the CLIP Note explores how faculty status affects librarians' promotion and tenure opportunities and the criteria at various institutions for defining librarians' status. The publication includes tenure and promotion documents illustrating practices at both public and private institutions with examples covering unions, evaluation, and weighting of criteria. CLIP Note #26 (ISBN 0-8389-7928-9) is available for $28.50 (ACRL members $24.00) from ALA Order Fulfillment, 155 East Wacker Drive, Chicago, IL 60611; phone: 800-545-2433 (press 7); fax: 312-836-9958.

Build your leadership skills
Enhance your personal leadership skills by attending ACRL's first leadership institute, "Building Your Leadership Toolkit." The institute will be held at the Tremont Hotel in Boston, April 30–May 1, 1998.

Bob Wedgeworth, university librarian, University of Illinois at Urbana-Champaign, and Cliff Lynch, executive director of the Coalition for Networked Information, will give keynote addresses.

Presenters sought for ACRL's 9th National Conference
ACRL seeks presenters for its 9th National Conference, "Racing Toward Tomorrow," to be held April 8–11, 1999, in Detroit.

A complete description of the conference theme, deadlines, and a program proposal form are included as an insert to the January issue of C&RL News and the entire call for participation is available on the Web at: http://www.ala.org/acrl/prendex.html.

JSTOR establishes journal conversion facility at Princeton
JSTOR, the nonprofit organization dedicated to helping the scholarly community take advantage of advances in information technologies, plans to work with Princeton University Library to establish a production facility for converting paper journals to electronic form. This facility, which will supplement a similar operation at the University of Michigan, will double JSTOR's capacity to gather journal runs, to organize them for scanning, and to load them onto JSTOR's growing database of the complete runs of core scholarly journals. JSTOR is currently adding material at the rate of approximately 100,000 pages a month.

Define ACRL contest deadline near
February 15 is the deadline for submitting entries to the "Define ACRL" contest. The ACRL Board of Directors is seeking a good, pithy slogan that will, in no more than a sound bite, describe the mission of ACRL. The winner will receive complimentary registration to ACRL's National Conference, April 8–11, 1999, in Detroit, as well as three nights lodging in a conference hotel. Entries will be judged by the ACRL Board of Directors.

Submissions should be sent to ACRL Slogans, 50 E. Huron St., Chicago, IL 60611 or by e-mail to: acrl@ala.org.
Digital copyright legislation pending

An open letter to the library community

Dear library supporter:

As the presidents of four of the nation’s major library associations, we write to ask for your assistance in garnering support for two pieces of federal legislation of critical importance to the library community, indeed to libraries in every community.

These bills are Sen. John Ashcroft’s (R-Missouri) Digital Copyright Clarification and Technology Act (S. 1146) and the Digital Era Copyright Enhancement Act, jointly introduced by Representatives Rick Boucher (D-Virginia) and Tom Campbell (R-California) (H.R. 3048).

In our view, these proposals present the best approach to updating the Copyright Act to meet the challenges of the digital environment while, at the same time, preserving the critical balance between copyright owners and users in the electronic age. Both bills include provisions which are essential to libraries if we are to effectively serve our patrons, scholars, researchers, and students in the networked environment.

We seek your immediate help in assisting Sen. Ashcroft and Reps. Boucher and Campbell to persuade other members of the Senate and House to cosponsor S. 1146 and H.R. 3048, respectively.

Why this effort is important to all libraries

Each year, millions of researchers, students, and members of the public benefit from access to library collections—access that is supported by fair use, preservation programs, interlibrary loan, and more.

We must ensure that the Copyright Act continues to serve the public who rely upon these collections and services. The Ashcroft and Boucher-Campbell bills seek to update the Copyright Act by extending the balance that we currently enjoy so that owners, creators, and users alike may benefit fully from the opportunities of the digital environment. These bills appropriately extend the balance by clarifying or updating selected privileges granted to libraries, researchers, educational institutions, and others under current law.

Action is needed now

Accordingly, we are asking the members of our associations—and all other library supporters—to:

• study the attached material detailing the contents of S.1146 and H.R.3048;
• write to your House and Senate delegations requesting co-sponsorship of these bills; and
• call and visit the members of your Congressional delegation and ask them to cosponsor S. 1146 or H.R. 3048, as appropriate.

Sen. Ashcroft, and Reps. Boucher and Campbell, would appreciate our help in achieving passage of this potentially landmark legislation. The most critical first step in this process is to engage members of Congress and seek their endorsement of these bills.

Let Congress know now the importance of updating the Copyright Act for your institution, your users, and of ensuring that libraries will be able to effectively serve the nation in the information age.

Thank you. Our associations stand ready to assist you in any way that we can. Please do not hesitate to call upon us and to let us know of your efforts.

—Judith A. Meadows, president, American Association of Law Libraries;
—Barbara J. Ford, president, American Library Association;
—James G. Neal, president, Association of Research Libraries;
—Judith J. Field, president, Special Libraries Association
Document suppliers come and go but CISTI is here to stay

CISTI has been providing information since 1924. Our in-house collection grows by 1,000 new items a day. We are one of the world’s principal document suppliers in science, technology, engineering, medicine and agriculture, processing about 2,500 orders daily.

CISTI’s successful document delivery service is built on 5 principles:

1 Reliability
Our dedicated staff and fully automated system supply articles, reports and conference proceedings from our in-house collection.

2 Speed
Most orders are processed in one day, while our urgent service delivers in only 4 hours.

3 Flexibility
We offer 12 options for ordering (OCLC, DOCLINE, Web and others) and fax, Ariel, ftp, or print delivery.

4 Economy
Articles can cost as low as $8 each (plus actual copyright charges). Prices are even lower for high volumes.

5 Client Service
Our client service team will impress you with the fast and meticulous way they handle your concerns.

For a free Guide to CISTI’s Document Delivery Services or to register contact CISTI at 1-800-668-1222, cisti.info@nrc.ca or http://www.nrc.ca/cisti

CELEBRATING 75 YEARS OF SERVICE IN 1999
