shall cause his reproduction to be of a quality satisfactory to the institution from which he has borrowed the originals, and, if published on microfilm, shall meet the minimum standards for microfilming established by the Library of Congress. If the reproduction is published in book form, the publisher must use permanent paper (as defined by the Barrow Laboratories, Richmond, Virginia).

d. **The Original.** (1) The publisher will not permit original manuscripts or other archival materials to suffer physical damage while in his care. Should damage occur, all repairs are to be made by qualified conservators in accordance with guidelines established by the owning institution and at the expense of the publisher. (2) If the archival or manuscript materials are damaged beyond repair, the publisher must reimburse the owning institution at the value set by an independent appraiser who is jointly selected and therefore satisfactory to both the publisher and the owning institution.

e. **Reproduction.** The owning institution shall specify when the reproductions are to be made and the conditions under which they will be made.

f. **Royalties.** The owning institution shall receive from the publisher (1) an agreed royalty which has been established in advance by legal contract and (2) a sufficient number of copies of the publisher's reproduction for the institution's internal use.

g. **Restrictions.** The publisher must respect any restrictions placed upon reproductions or copies of original manuscripts or archival materials furnished to him.

4. a. Both the owning institution and the publisher must inform purchasers of reproductions that permission to make extensive direct quotations or to print any reproduction in full must be obtained from the owning institution. Every reproduction must bear a clear statement to this effect.

b. Manuscripts must not be published without due regard for common law rights, literary rights, property rights, and libel laws.

---

**CLR Board Elected**

Page Ackerman, librarian of the University of California at Los Angeles, Ruth Davis, director of the National Bureau of Standards' Center of Computer Science and Technology, Warren J. Haas, librarian and vice-president of Columbia University, and Maximilian W. Kempner, member of the New York law firm of Webster Sheffield Fleischmann Hitchcock & Brookfield, have been elected to the board of directors of the Council on Library Resources, Inc. (CLR).

---

**Classified Advertising**

**NOTICE**

Respondents to advertisers offering faculty "rank" and "status" are advised that these terms are ambiguous and should inquire as to benefits involved.

All advertisements submitted by institutions offering positions must include a salary range. The range should provide the applicant with an indication of the salary the institution is willing to provide for the position offered.

All advertisements for the Positions Wanted and the Positions Open classifications will be edited to exclude direct or indirect references to race, creed, color, age, and sex as conditions of employment.

Classified advertising orders and copy, and cancellations, should be addressed to the Advertising Department, 50 East Huron Street, Chicago 60611, and should reach that office before the second of the month preceding publication of issue desired. Copy received after that time may be held for the next issue. Telephone orders for classified advertising, while not encouraged because of the increased risk of copy error, will be accepted. Calls should be directed to Leona Swiech at (312) 944-6780. A confirming order should be mailed to the Advertising Department as soon as possible following the call, along with typewritten copy to be used in proofreading the ad.

Rate for classified advertising is $1.30 per printed line.

Myers, Assistant Librarian for Technical Services, Univ. of Arizona Libraries, Tucson, AZ 85721. An equal opportunity employer.

Why not handle your foreign affairs domestically?

There is no need to rely on one subscription agency for your domestic periodicals and another for your foreign. The F. W. Faxon Company is an international subscription agency handling periodicals from around the world. (We presently list over 8,000 foreign titles and are constantly adding more.) Now you can place one order for all your periodicals — domestic and foreign — and receive one annual invoice.

Our Foreign Department handles translations, keeps up-to-date with the changing status of foreign currencies, and maintains up-to-the-minute records on foreign publication frequencies.

Use Faxon's expertise. You'll find there's no language barrier at Faxon.

Library business is our only business — since 1881.
languages. Additional desirable qualifications: back­
ground in social sciences; ability to supervise. Experience

BOOKS FOR COLLEGE LIBRARIES

Second Edition

The new edition of this essential publication for college libraries comprises six paperback volumes:

Volume 1 HUMANITIES

2 LANGUAGE AND LITERATURE

3 HISTORY

4 SOCIAL SCIENCE

5 PSYCHOLOGY, SCIENCE, AND TECHNOLOGY

6 INDEX

The preparation of the Second Edition, a project of the Association of College and Research Libraries, a division of ALA, was funded by the Council on Library Resources. The nearly 40,000 titles selected are considered to be the minimum essential for the four-year undergraduate library. Subject specialists evaluated the titles in the earlier edition and titles published between 1964 and 1972. ISBN 0-8389-0178-6 $65.00

Special Pre-Publication Price $52.00

Place your order before June 27 and receive this special 20 percent discount.

Introducing the first multidisciplinary guide to review articles

INDEX TO SCIENTIFIC REVIEWS™

Now you can easily retrieve review articles on any subject in science. The Index to Scientific Reviews (ISR™) will index them each year—over 16,000 reviews selected from more than 2,700 of the most important journals published throughout the world.

Broad Coverage
Over 100 disciplines in every area of science are covered:
- Agricultural, Biological, and Environmental Sciences
- Engineering and Technology
- Medical and Life Sciences
- Physical and Chemical Sciences
- Social and Behavioral Sciences

So you won't have to go through separate references to locate review articles for subjects in any of these areas. With one index—the ISR—you can cross disciplinary boundaries and retrieve these key articles no matter where they were published in the literature. The ISR will even cover the literature published in quarterly and annual "review" publications (e.g., Annual Review of Biochemistry).

Effectively Indexed
The Index to Scientific Reviews is organized to give you easy yet precise access to the review articles you need. You can search by authors, title words, word phrases, and organizations. In addition the ISR includes a citation index that permits you to start a search with previously published material relevant to a subject and retrieve more recent articles through citation relationships.

Highly Current
The ISR indexes the review literature on a calendar year basis. A soft-bound semi-annual issue (covering January to June) will be available each September, and a hard-bound annual cumulation will appear the following April. So you can find new articles while they're still new.

And Inexpensive
A year's subscription to the ISR costs only $25. You get a lot of information—and easy access to it—for your money.

What's In It For You?
The ISR could be the most welcome addition to your library you'll make all year. There just isn't any other reference tool that indexes so many review articles so effectively. Once you have it, you'll use it over and over again to find those one or two key articles you need to start you off on a really thorough search. And what better way to find those summary-type articles for students, researchers, and educators in need of quick reviews of subjects unfamiliar to them?

For More Information About The ISR...
The first ISR annual cumulation (covering the 1974 literature) will be out soon, so get the full story on the Index to Scientific Reviews now. Just fill in the coupon, and mail it today.

I'd like to know more about the Index to Scientific Reviews™. Please send me full information including details on discounts for multi-year subscriptions.

☐ Also send a complete list of source publications indexed by the ISR™.

National Faculty Directory '75

The National Faculty Directory is the standard reference for identifying and locating members of teaching faculties at U.S. and selected Canadian institutions of higher education. NFD-'75 is a thoroughly updated work: over 110,000 changes have been made in existing listings and about 35,000 names have been added. Each entry gives name, department, institution, and complete mailing address.

REVIEWERS’ COMMENTS ON PREVIOUS EDITIONS . . .

- CHOICE: "Clearly, this compilation is one of the most important reference works now available to the higher education academic community . . . An essential acquisition for all academic libraries."
- AMERICAN REFERENCE BOOKS ANNUAL: "The currency of information in the present edition is considerably better than are most mailing lists distributed by some publishers and special mailing houses."
- HIGHER EDUCATION BOOK REVIEW: "The National Faculty Directory is a thorough and comprehensive volume and an invaluable source material for personnel in the academic community and otherwise. A 'must' reference aid in any administrative-academic office."
- SCIENCE BOOKS: "This should prove to be a widely used reference in colleges, universities, public libraries, educational and professional organizations, etc. . . . Highly recommended."

Order now to receive NFD-1975 on free 30-day approval. Receive future editions as published by placing a time saving standing order.
