"The British Biographical Archive has a fair claim to being the most important work of biographical reference to appear since the first publication of the DNB in 1885. The editorial input of this Saur publication—and, in particular, the degree of indexing and cross-referencing—adds vastly to its utility and indeed constitutes one of its chief claims to indispensability."

A.L. ROWSE

"For years biographers and historians have been making use of quaint and amateur systems of information retrieval. The British Biographical Archive now provides them with a genuinely modern aid to research. It is a new and valuable instrument of twentieth century scholarship."

MICHAEL HOLROYD
