Beginning in 1973 you'll find it a lot easier to search the social sciences journal literature if your library is one that has the new SOCIAL SCIENCES CITATION INDEX.

SSCI™ will utilize a retrieval technique based on the fact that some of the best indicators of the subject of an article are its reference citations to earlier publications. The technique is called Citation Indexing and SSCI will be the first reference tool to apply it to the literature of all the social sciences. So SSCI searches won't be hampered by ambiguous and rapidly changing terminology because SSCI won't use traditional subject headings.

And because SSCI will cover over 1,000 of the world's important journals from fields like anthropology, community health, demography, economics, educational research, ethnic group studies, geography, history, law, linguistics, management, marketing, political science, psychiatry, psychology, sociology, statistics, and urban planning and development, wide scattering of related articles won't result in incomplete searches.

Send in the coupon to find out more about why your library should have SSCI.

Please send me more information on your new SOCIAL SCIENCES CITATION INDEX™.

This master key to current book commentary gives timely citations to all reviews in over 225 periodicals, including Saturday Review, Library Journal, Choice, Time, Booklist, Harper's, Atlantic, Horn Book, and New York Times. BRI entries give author's name, title of book, reviewing publication, and date and page of review. BRI covers approximately 65,000 reviews of 35,000 new books each year.

**Periodical Issues.** Bimonthly issues of BRI are now appearing promptly and regularly. Every second issue cumulates the preceding issue. Softbound. Annual subscription, with binder, $45.00.

**Annual Cumulations.** The cumulation of the periodical issues covering 1972 will be ready in late fall, 1973. Future cumulations of periodical issues will appear shortly after the close of each year. Clothbound. $45.00/cumulation.

**Choice:**
"A basic reference tool which belongs in all libraries."

**Booklist:**
"No other indexing service offers the diversity of Book Review Index. It is recommended for all libraries."

BOOKMAN'S PRICE INDEX

The sixth and seventh volumes were recently added to the now-standard Bookman's Price Index series, bringing the total number of listings to nearly 335,000. BPI is comprised of listings of books offered for sale at $10.00 or more in catalogs issued by the world's leading rare book sellers, specialist dealers, and O.P. bookmen. Arranged within each volume alphabetically by author, entries give author, title, place and date of publication, pagination or collation, condition, dealer's name, catalog number, and item number, year the catalog was issued, and price of the book. Volumes 1 to 7 of BPI are in print, $38.50/vol.

**AB Bookman's Weekly:**
"Still the most comprehensive, clearest general price guide of its kind!"

**American Reference Books Annual:**
"The set is recommended as a must for all larger public and university libraries."

CONTEMPORARY AUTHORS

With the publication of Volume 37-40, the Contemporary Authors series provides full biographical information on 33,000 of today's active writers, including nearly 29,700 that cannot be found in any similar reference work. Ease of use is assured, because sketches are uniform in style and format; each presents personal and career facts, a complete bibliography, work in progress, sidelights, and biographical/critical sources. Covering the entire series, the cumulative index in Volume 37-40 includes references to authors in Volume 1 of Contemporary Literary Criticism, a new companion series described below. CA is sold in four-volume units, $25.00/unit.

**Booklist:**
"The bibliographies are not only accurate but comprehensive and, in many instances, unavailable in general biographical sources. . . . Contemporary Authors is recommended for junior and senior high school, college, and public libraries that face the problem of providing biographical material about current authors who are not listed in other sources."

CONTEMPORARY LITERARY CRITICISM

The first volume of this continuing series is now available, and will be followed by the second in late 1973. The series is devoted entirely to current evaluations of established modern authors (now living or deceased since 1960) and important new authors. Succeeding volumes in the CLC series will contain criticism on authors not previously covered, plus new criticism on authors already treated in earlier volumes. Covering about 200 authors, Volume 1 includes nearly 1,100 individual excerpts taken from about 250 books and several hundred issues of some 50 general magazines. With cumulative indexes of authors and critics. $25.00/vol.
