180 years of documented American history ★ ★ ★

CIS US Serial Set
1789-1969

The events that shaped America are recorded in depth and detail in the U.S. Serial Set, America's oldest ongoing and most valuable document series. Every significant phase and facet of our nation's growth and development is thoroughly documented—explorations and expeditions, commerce and industry, social concerns and problems, foreign and domestic activities. It's all in the Serial Set—a massive collection of more than 325,000 individual titles containing over 11 million pages.

Available on archival quality microfiche

Now your library can acquire this vital historical reference source, add to a present collection...or replace it with the CIS US Serial Set on Microfiche. The full texts of documents are being published on silver halide, archival quality fiche—compact, durable, fully catalogued and ready to use.

Indexed in its entirety

The CIS US Serial Set Index, published in twelve parts corresponding to microfiche groups, will allow scholars and researchers—for the first time—to access fully the wealth of important information included in the U.S. Serial Set. The Index is an indispensable finding aid—complete, well-organized, and easy-to-use. It is also an authoritative shelf list.

Invaluable for reference, research and cataloguing

The CIS US Serial Set publishing program will be completed in 1979 and will encompass the American State Papers and Serial Set publications of the 15th Congress through the 91st Congress, First Session. Of the twelve Microfiche groups with companion Index parts, three are available now and a fourth will be published later this year. Microfiche groups are available at an average cost of $8,950 per group. Index parts ordered individually are $400...$360 each on standing order.

Now for the first time, your library can have access to 180 years of documented American history.

"No other publication is as current and authoritative as CHOICE."
— John Rowell, Professor of Library Science, Case Western Reserve University

— BOOK REVIEWS —

CHOICE reviews more serious books than any other reviewing medium in the United States. Its reviews, written by college faculty throughout the U.S. and Canada, are succinct and unbiased, placing each book clearly within the literature of its field and indicating its appropriate readership level. Included are publications from both American and Canadian firms, as well as many titles published abroad but distributed through North American representatives. All bibliographical information is entered, in standard library format for easy reference.

— Bibliographical Essays —

Each issue of CHOICE contains one or more bibliographical essays which examine important works in specific areas of study. These essays provide title-by-title evaluations as well as detailed bibliographies of the books discussed. Subject areas range over the whole spectrum of academic and public interests.

— Readers —

Published by the Association of College and Research Libraries, CHOICE is read by librarians, teachers, students, and the informed public. Long recognized by the college world as an essential book selection tool, it is now being "discovered" by high schools and public libraries. Its circulation of approximately 6,200 reaches virtually every university and community college in North America and many of the leading academic institutions and libraries of Europe, Asia, and the Far East.

"... of vital importance for any secondary school ..."
— Mary V. Gaver, Professor Emeritus, Rutgers University
