Streaming during the COVID-19 pandemic

“Americans (over the age of 2) streamed 85 percent more minutes of video in March 2020 compared to March 2019, according to a new report from Nielsen. In total, Americans streamed 156 billion minutes of television during the last week of March, compared to 115 billion during the last week of February. Binge viewing, according to Hulu, which is defined as watching 3+ episodes in the same session,” grew more than 25 percent in the first two weeks of March versus the last two weeks of February.

Course credits and GPA

“Based on the subset of students with complete transcripts or enrollment data, 2011–12 beginning post-secondary students attempted an average of 24 undergraduate credits and earned an average of 20 undergraduate credits and a 2.5 GPA during their first year in postsecondary education. By June 2017, about 6 years after post-secondary entry, they had attempted an average of 88 undergraduate credits and earned an average of 78 undergraduate credits and a 2.6 GPA.” Forty-two percent of the students had taken some remedial courses during their enrollment.

Podcasts

The top three podcast publishers as of March 2020 are NPR, iHeartRadio, and New York Times, accounting for 61,718,000 monthly listeners in the United States and 549,689,000 global downloads and streams monthly.

Educational institutions

In 2017, there were 98,158 public K-12 schools and 32,461 private K-12 schools in the United States. There were 2,407 four-year colleges. Of those, 711 were public institutions and 1,301 were private-nonprofit institutions. The remainder were private for-profit institutions.

Facebook

“With over 2.6 billion monthly active users as of the first quarter of 2020, Facebook is the biggest social network worldwide. During the last reported quarter, the company stated that almost 3 billion people were using at least one of the company’s core products (Facebook, WhatsApp, Instagram, or Messenger) each month.”
